PRE-BID ADDENDUM NO. 1

Project Bid: 2013 Street Sweepings Disposal Bid

Bid Date: Tuesday, June 25, 2013
Time: 1:30 p.m.

Opening: Office of the City Clerk
City Hall
320 West Broadway St.
Mt. Pleasant, MI 48858

Addendum Issued By: Division of Public Works

Date Issued: June 17, 2013

Intent: To clarify the Pay Items section of the bid specifications that the City's Street Department will provide the loader and operator to load the sweepings onto the contractor's trucks. Contract will be for hauling only.

To clarify that bid pricing shall be all inclusive; no separate fuel surcharges will be allowed.

To clarify that the terms street sweepings disposal and street cleanings disposal are interchangeable.

Bid Proposal: No change

Specifications: Revised. See attached.

**City of Mt. Pleasant
2013 STREET CLEANINGS DISPOSAL
Specifications**

General

The purpose of this bid is to form a contractual agreement for a vendor to supply disposal services for street sweepings and catch basin cleanings for period of one year. The City presently estimates 1,000 tons of street sweepings annually from City streets and State trunk lines. The successful bidder will be responsible to weigh and dispose of all street sweepings at a State of Michigan authorized Class II landfill.

The City of Mt. Pleasant will supply a front-end loader and operator to load the contractor's trucks. Bidders shall list the weigh station name and address on the proposal. Material must be weighed on a State certified scale and weight tickets must be turned into the City before the end of the workday. Street sweepings and catch basin cleanings will be hauled from separate stockpiles at the City's Wastewater Treatment Facility, located at 1301 North Franklin Street. They shall be stockpiled and have had an opportunity to drain so as not to be saturated with water. The contractor will be responsible for supplying trucks to haul the debris on days mutually agreed upon by both the contractor and the City's Street Department at least one (1) workday in advance.

The contractor shall submit the City of Mt. Pleasant Bid Proposal, the Michigan Department of Transportation Quotation Request for Services or Equipment (Form 426), and a 5% bid bond in a sealed, labeled envelope on the date specified.

Description

Regular disposal of City and State street sweepings and/or catch basin cleanings at least every other month during warm weather months, June through November, or more often, if mutually agreed upon by the City and the contractor.

MDOT Form 426

Each bidder shall complete and submit this form along with the bid proposal. Because this is a joint contract between the City and the State, separate documentation and forms are required by each entity. The quantities on this form are those only for State trunk line sweeping debris. The City's bid proposal includes *all quantities of both the State and City sweeping debris.* Unit prices shall be the same as those listed on the bid proposal. Please make certain to complete the vendor portion of the form.

Separation of Material Tickets

City and State debris will be stockpiled in separate areas at the City's Wastewater Treatment Plant, located at 1301 North Franklin Street. The contractor shall haul separate loads from each stockpile and all weight tickets shall indicate whether the load is from the City's or State's stockpile. All invoices shall list separate quantities and fees for both City and State.

Pay Items

The City's Street Department will load the sweepings into the contractor's trucks. Unit prices shall include all costs for the hauling and disposal of sweepings and catch basin debris. **Separate surcharges for fuel will not be allowed.** Payment shall be made based on weight tickets on a price per ton basis.
