Questions Regarding
2014 Sanitary Sewer Cleaning and Televising Project
and
2014 Storm Sewer Cleaning and Televising Project
Last Updated April 17th, 2014

Q. How should the deduction for multiple contract award be bid?

A. If relevant, please bid half of the deduction on each contract.

Q. If you don't bid the alternate #1 (CCTV with 3-D) does that eliminate you from the bid?

A. No, if the added cost of the 3D system is more than what is justified by the extra capability, then the alternate will not be used to determine award.

Q. If we cannot bid the alternate should it just show 0?

A. Yes

Q. Are the backyard runs only sanitary?

A. Mostly, but there are a number of storm mains in easements.

Q. Can we use an easement machine?

A. If normal cleaning equipment cannot be used, then use of an easement machine will be allowed.

Q. Can we use the hydrants on the streets where we're working?

A. Yes, as long as the water department is aware of and agree to which hydrants and how you are hooking up.

Q. How much by-passing do you think may be done.

A. This is unknown.

Q. Where do we dump?

A. The waste water treatment plant is at the north end of Franklin Street at the north end of town.

Q. What is the estimated start date?

A. The earliest would be the end of May.

Q. Is there any major roads for traffic control?

A. Yes there are major streets, please see attached street designation map.
