

2016 Mt. Pleasant Mobile Home Fence Project - Addendum 1

June 3, 2016

Pre Bid Meeting - Questions and Answers

1. How far from the property line will the fence be installed?

Answer: I met with the engineer this morning and we have decided that the fence will be installed 12" east of the property line (into the right of way). This will avoid most of the encroachments that remain: white fence, some trees (we will be removing 1).

2. What about all of the utilities that remain?

Answer: MISS DIG is being contacted today to identify what if any other utilities need to be moved.

3. How should we estimate the length of the fence?

Answer: To be consistent all bidders should assume the fence is 970'

4. Is a prevailing wage required on this project?

Answer: No, a prevailing wage will not be required on this project.
