Adjustments made to City refuse bag and tag prices

MT. PLEASANT, Mich. – Price adjustments to the City refuse bags and tags were approved at the Dec. 14 City Commission meeting. The costs were adjusted based on the volume of trash that can be disposed of using a tag versus a bag.

Previously, the wholesale costs of both bags and tags were \$2.05 each. However, because City tags allow for a greater amount of waste to be discarded, the wholesale tag rate was increased to \$2.10 per tag, and the wholesale bag rate was decreased to \$1.80 per bag.
